

## Appendix 1 RAPPORT DANS OPSYS

An Intervention (also generally called project/programme) is the operational entity associated to a coherent set of activities and results structured in a logical framework aiming at delivering development change or progress. Interventions are the most effective (hence optimal) entities for the operational follow-up by the Commission of its external development operations. As such, Interventions constitute the base unit for managing operational implementations, assessing performance, monitoring, evaluation, internal and external communication, reporting and aggregation.

Primary Interventions are those contracts or groups of contracts bearing reportable results and respecting the following business rule: 'a given contract can only contribute to one primary intervention and not more than one'. An individual contract that does not produce direct reportable results and cannot be logically grouped with other result reportable contracts is considered a 'support entities'. The addition of all primary interventions and support entities is equivalent to the full development portfolio of the Institution.

The present Action identifies as:

<b>Action level</b>		
<input type="checkbox"/>	Single action	Present action: all contracts in the present action
<b>Group of actions level</b>		
<input type="checkbox"/>	Group of actions	Actions reference (CRIS#/OPSYS#): <Present action> <Other action>
<b>Contract level</b>		
<input checked="" type="checkbox"/>	Single Contract 1	Contrat d'appui budgétaire
<input type="checkbox"/>	Single Contract 2	
<input checked="" type="checkbox"/>	Group of contracts 1	Ensemble de différents contrats constituant l'enveloppe d'accompagnement, tels que : <ul style="list-style-type: none"> <li>- Contrats de subvention, dont des jumelages ;</li> <li>- Contrats de services en gestion centralisée et décentralisée, de type assistance techniques/approches projets ;</li> <li>- Contrat d'évaluation.</li> </ul>
