

**Outcome of the CRA (Climate Risk Assessment) screening** (relevant for projects and/or specific interventions within a project)

The Climate Risk Assessment (CRA) screening concluded that this action is no or low risk (no need for further assessment).

#### **Gender equality and empowerment of women and girls**

As per the OECD Gender DAC codes identified in section 1.1, this action is labelled as G0. This implies that the action is not considered relevant in terms of contributing to gender specific objectives or targeting gender specific activities.

#### **Human Rights**

Respect for human rights, including women's rights, is a fundamental value of the European Union. Aligning the legal framework of China with international standards (ratification and implementation of international human rights treaties) is a key activity under this action. The design and implementation of the action will give attention to those who are most marginalised, excluded or discriminated against and living in vulnerable situations. The action will attempt to intensify the dialogue on human rights as universally recognised and as a core aspect of China-EU relations. This action will apply a human rights-based approach encompassing all human rights, whether civil and political or economic, social and cultural in order to integrate human rights principles (applying all human rights for all, meaningful and inclusive participation and access to decision-making, non-discrimination and equality, accountability and rule of law for all, and transparency and access to information supported by disaggregated data). The approach will be guided by the principle of "leaving no one behind", equality and non-discrimination on any grounds.

#### **Disability**

As per OECD Disability DAC codes identified in section 1.1, this action is labelled as D0. This implies that the action does not propose any activity concerning any disability, nor contribute to this DAC.

#### **Reduction of inequalities**

The attainment of human rights, the rule of law, liberal democracy, peace, conflict prevention, resilience and stability in our partner countries, and even more in China are key objectives. Project designs are aiming to implementing policies and programmes that meet people's needs, reduce inequalities, and fulfil the central commitment of the 2030 Agenda to leave no one behind.

#### **Democracy**

All activities, including policy dialogue with the Chinese Government, will aim to strengthen the inclusiveness of policy dialogues as well as an accent on the importance of the rule of law, good governance, transparency and anti-corruption.

#### **Conflict sensitivity, peace and resilience**

Monitoring the promotion of human rights, fundamental freedoms, peace and security both in China and in partner countries will be considered as appropriate.

#### **Disaster Risk Reduction**

Unabated climate change is significantly increasing disaster risks. The action will contribute to implementing and promoting cost-effective emission reductions and could thus alleviate disaster risks.

### **3.4 Risks and Lessons Learnt**

<b>Category</b>	<b>Risks</b>	<b>Likelihood (High/ Medium/ Low)</b>	<b>Impact (High/ Medium/ Low)</b>	<b>Mitigating measures</b>
